**Subject: Award / Receipt of Order**

We are pleased to announce that we are going to provide our AC duct cleaning services at India's Largest Hydroelectric power station i.e Koyna Hydroelectric power project.

The Koyna Hydroelectric Project is the largest completed hydroelectric power plant in India. It is a complex project with four dams including the largest dam on the Koyna river, Maharashtra. The project site is in Satara district, near Patan. The project consists of four stages of power generation. We have received an order of Rs. 54 lakhs for AC duct cleaning for stage I & II. All the generators are located in underground powerhouses excavated deep inside the mountains of the Western Ghats.

We started our journey by providing AC duct cleaning & ozone sterilization work at Vaitarna Hydroelectric power station, situated on river Vaitarna near Nashik, Maharashtra. We had also provided our services in the Thermal power stations of MAHAGENCO & cleaned and sterilize the AC ducts at the Panel control rooms of many Thermal power stations. Our patented robotic technology is the revolution in HVAC duct cleaning industry.

"We are excited to receive this valuable &prestigious order", says Mr. Jay Prakash Motghare, Whole Time Director of our Company.

The above is for your information and dissemination to the stakeholders.

Thanking you,

**For Nirmitee Robotics India Limited**
